

INOX STEEL TECHNICAL

Inox Machinery Manufacturers For Food & Milk Industries

MILK COOLING TANKS - REFRIGERATORS

Vertical, cylindrical, open type I.S.T. A4, capacities : 500 lt – 2.000 lt.

1. Agitation device with extra protective cover on the top.

2. Easy access to the sensor for inspection and possible replacement.

3. Automatically stopped agitator when opening the lid.

4. Much greater bottom insulation thickness, for better cooling and energy saving, **against of the competitors.**

5. Product outlet through bend, to avoid foaming of the milk.

6. Constructed by thicker steel sheets, **against of the competitors.**

7. Launch of the agitation, upon receipt of the sample, pressing the **BUTTON** to the device.

8. Latest technology **laser welded** bottoms.

9. Installation of branded compressors from leading manufacturers.

10. Time protection of the compressor, from the instantaneous power outages, lasting 2 minutes.

11. In A4 series models from 500 lt to 2.000 lt, the condensers have two (2) fans (ventilators) for better performance and effortless operation of the compressor.
